GREEN GEN CYMRU VYRNWY FRANKTON

TARGETED STATUTORY CONSULTATION

4 February to 27 March 2026

FEEDBACK FORM

Green GEN Cymru's Vyrnwy Frankton project is a proposed new 132 kV connection to connect energy parks in Mid Wales to the national electricity network.

We held our statutory consultation between 19 February and 16 April 2025. During our consultation we engaged with members of the community, elected representatives, landowners and specialist bodies to hear their views on our proposals.

Since then, we've carefully reviewed each piece of feedback, including specific suggestions for design changes such as repositioning a pylon, and considered the findings of ongoing environmental and engineering surveys.

This process has identified some areas where we could make updates to our proposals. These changes won't affect the overall impact of the project.

We are holding targeted statutory consultation to give those who will be potentially impacted by the proposed changes the opportunity to provide location specific feedback on the changes close to them, before we submit our application for a Development Consent Order (DCO) in 2026.

Your detailed comments are valuable to us and can help influence the updates.

The deadline for submitting feedback to this consultation is 23:59 on Friday 27 March 2026.
